Williamsville N.Y.

Dear Sir -

Received your letter the other day and was very pleased with the information and am forwarding you one of our membership cards. This card is one we distribute locally for the purpose of obtaining money for operating expenses. We have not made a practice of putting on D.X. programs but I was down in Regina about 300 miles south of here and wanted to see how it came through, I also had a letter from a fan in Vancouver from the same program.

I am doing as you suggested writing to the Radio Press and having our call listed if possible. We are licensed for 25 watts to the antenna but on this occasion had about 75

I designed and built this station in spare time and we are on the air from 12 to 1. We normally maintain and 6. to 8 in the evening

If at any time you hear us again I would appreciate it very much if you would drop me a line.

GEM OF THE WEST

Sincerely yours,
Lloyd Moffatt.
