We had a short test 4 to 4:30 am Nov 5 and got letters from over 100 towns and cities, the best being Nashville, Omaha, and Winnipeg and Montreal. all report good quality.

We may be slow on sending out verifications as I am about the only one looking after the station. the DX work is all up to me.

The Best of luck for another season and glad to hear from you anytime.

yours,

W.T. Brundshark
