

C F C H

Northern Supplies' Radio Station

Capitol Theatre Building

North Bay - Ontario

2.

Your comments with regard to programmes and their presentation are much appreciated--particularly by myself. I major in this type of work and have had reason to be much gratified. Radio presentation in a small city is anything but a bed of roses as you may well appreciate but we are doing our best to maintain the recognized position--that of operating the finest of small radio stations in the Dominion of Canada. We are a member of the basic network of the Dominion Broadcasting Company and of the Canadian National Railways, which in itself is quite a distinction. I mention these items, not in bombastic fashion, but just as one radio man to another.

In conclusion I might say that we do not issue a special stamp but use a verification card one of which I am including in this letter.

Thanks for your letter old man and I shall be more than pleased to hear from you at any time. We shall be conducting tests when our new equipment takes the air and I shall make a point of arranging in advance to contact you so that we may have your comment.

Yours very truly,

RADIO STATION CFCH.
