C. B. C. D O M I N I O N N E T W O R K

BROCKVILLE, ONT.

January 1, 1953.

Mr. J. W. Brauner,
23 Howard Avenue,
Williamsville, New York.

Dear Sir:

I am very pleased to verify your report of reception of our signal on 1450 kc. from 4:55 a.m. to 5:16 a.m. EST on December 7, 1952.

Since this was our first DX Special using our new transmitter, which has been in service since July 29, 1952, we are especially interested in the results.

Our transmitter is an RCA BTA-250M, with a power output of 250 watts, feeding a vertical quarter wave tower, against a buried radial counterpoise. Our pattern is circular.

Many thanks for your interest and your report, and best wishes for a Happy New Year.

Yours very truly,

Sid Penstone,
Chief Engineer.
