TILLSONBURG, ONTARIO

June 6, 1955

Mr. J.W. Brauner
P.O. Box 22
Valier, Pa.

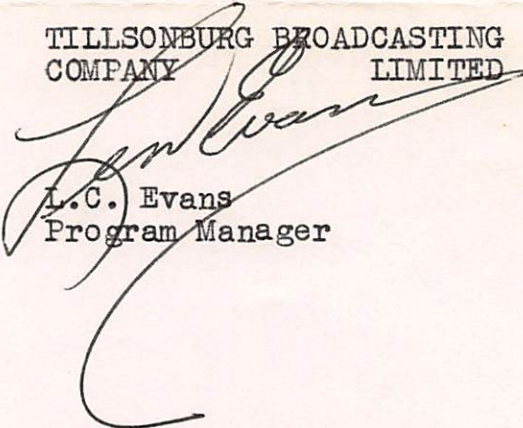

Dear Mr. Brauner:

This will verify your report of our signal for Sunday, May 29th. The items which you report are accurate and therefore there is no doubt that you were listening to CKOT, the Tri-County Station.

We are therefore pleased indeed that we are being picked up as far away as your location in Pennsylvania. We have had other reports, from Erie, and also from northern parts of Ontario, which indicate a broad coverage for a 250-watt daytime station. For your information, we are operating on a continental transmitter (250-watts) with one tower 165 feet in the air. Our operation is from sunrise to sunset each day. Thank you for your report on our coverage and for your interest in DXing. Best wishes to you and your radio endeavours and our best wishes also to the National Radio Club.

Yours very truly,

TILLSONBURG BROADCASTING
