Dear Sir:

We wish to acknowledge with thanks and verify your reception report of this station on April 11th, 1948 between 10:30 a.m. and 12:30 p.m. E.S.T. CKOX operates on a frequency of 1340 kcs with a power output of 250 watts.

Your report is very much appreciated as you DX'ers are a great aid in giving an indication of our signal strength in different localities. Since WEBR has changed to their new frequency, we have had several reports from Buffalo and vicinity.

Very sincerely yours,
