

Chicoutimi, P.Q.,
Oct. 10, 1933

Mr. J. W. Brauner,
New York.

Dear Sir,

We are very glad to hear from you and are indeed pleased to verify your reception of this station on the evening of the sixth instant. The items quoted agree with the station log for that evening and as announcements are made in both English and French there can be no question but that you were picking up this station directly.

We assure you that your report of the signal strength and quality of our program is fully appreciated. We are using a new type Marconi 100 watt -100% modulated transmitter and your report is very valuable indeed.

Allow me to say, in closing, that we will be glad to receive reports from you at any time and particularly during the coming winter months. May we thank you once again sir,

Yours truly,

C.R.C.S.,

Mr. J.W. Brauner,

17 East Spring Street,

Williamsville, N.Y..

Dear Sir,

Many thanks for your fine report on the D.X. program put over for your club. It is very gratifying to receive such an interesting letter from one who has apparently had several years interest in Radio. I would like to clear up one or two matters though which you mentioned. First of all the selections played were not the most popular but did happen to be about the best we had for a program for "English" listeners as practically all our recordings are French. True, more popular numbers would probably have resulted in a greater number of reports but they were not available. The remark about the announcer made me smile as yours truly who happens to be the engineer was doing the honors that night. I'll say I hesitated over the French titles. Happen to belong to Nova Scotia and am not too familiar with the French language as yet. Your comments on the 17th D.X. program just arrived and we sure appreciate them.

In closing would like to extend the staff's wishes for a happy yuletide and want you to know that your comments will always be welcome.

73a

Cordially yours,

J. E. Roberts
