- F. BARNES
- R. DUNLOP
- J. H. S. GARRETT
- W. J. JONES
- H. LARGE
- ARNOLD MAYBERY
- W. V. STEVENS
- J. T. TURNER

Dear Mr. Brauner;

I was again pleased to receive your letter of April 21st but sorry you did not catch us on our three broadcasts.

I also want to thank you for the papers and clippings which have been sent and especially the Newark News which reached here this morning, giving a record of our proposed DX programme tomorrow morning. I read with interest your letter to Mr. Paine. Not being an "old hand" myself I was rather mystified at portions of your letter but Mr. Paine very kindly explained them to me. The matter of the results of our DX tests came before our executive at it's last meeting and I was instructed to write you on their behalf expressing the sincerest appreciation of the association to you, the Newark News Radio Club, the Newark News and other agencies in the States who co-operated with us so kindly and so freely in connection with these tests. We are more than pleased at the results and had we known the possibilities of DX programmes we would have put a number on earlier in the season. We hope however, this fall that we will be able to work with you again to put on a series when the weather is more propitious for broadcasting.

We were able to verify 31 letters and cards reporting reception on the first test, 82 on the second, and 27 on the third. We found Chicago got our programmes particularly well, also the district around Denver and Kansas
