Owners and Operators of 10AB, The Community Station

Studio: In the Grant Hall Hotel.

Station Phone 3474

MOOSE JAW, SASK.

November 18, 1932.

Mr. J. W. Brauner,
17 E. Spring St.,
Williamsville, N.Y.,

Dear Mr. Brauner:-

We certainly appreciate the very close co-operation you have extended to us in all our DX programmes. While we dedicate isolated programmes to different radio clubs, as you know, the Newark News Radio Club is our standby, and we cannot express our appreciation too sincerely of both your and their co-operation with us.

I was very interested to note the contents of your letter of Nov. 6th. We will try out New Zealand toward Spring as you suggest.

I do not myself feel competent to write you a letter about our transmitter. It is entirely home-made and I am going to ask the man who made it to write you about this, but you must not expect to hear from him at once as he has been very busy with new equipment and I just don't feel like asking him to write and do his subject justice just now.

You will be interested to know that we had over one-hundred and sixty replies to our last DX test from all over the North American Continent, the farthest away being Tampa, Florida. We heard from Mountainair, New Mexico, so have now heard from every state in the U.S.A. The letters we have received have been most gratifying in that practically every one has been able to give us absolute proof that they heard our programme.

We will surely appreciate hearing from you at any time. We know you must have a lot of correspondence to handle, but any time you can find the opportunity to write, we would appreciate your doing so.

Yours very truly,
MOOSE JAW RADIO ASSOCIATION

J. W. Brauner
SECRETARY.
