Dear Sir,

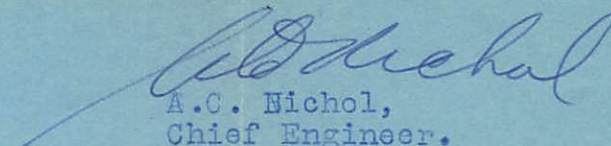

We note with interest your recent report on being able to receive our station in Williamsville. Thank you for your letter regarding same.

I enclose here an acknowledgement of your report, and hope this will satisfactorily complete your records.

I regret, that at present, we have no plans for a DX Test, as you request. Should we, in the near future, have any plans for such a program, we could let you know.

Thank you once again for your letter. I sincerely regret this delay in answering you.

Yours truly,

A.C. Nichol,
Chief Engineer.
