Williamsville, New York

Habana Nov. 23/1932.

Dear Sir:-

I hope you have received our verification card, that goes to mail at the same time that this letter.-

No wonder that you have got our station by surprise as we have had a change in our frequency lately, last week, we were on 1375, and now on 965, were I believe we feel much better. Now you know why we have moved to a new home in your radio without advise.-

Well I never thought that my poor english would sound so perfect, as you said in the third paragraph of your nice letter, for what I thank you.-

Your report is one of the best we have got so far as that program was the fourth of our Dx season this year.-

In the fourth paragraph of your letter you said that you heard when the announcer said the call letters followed by a word for each letter, no it was one advertisement of the "Gem" G.E.M. Safety Razor from Brooklyn", and I asked a favor from our DX friends to write to the Gem people in Brooklyn telling them to have listened that ad, if you do not mind I will appreciate it very much if you do so, just tell them that you have heard station C.M.C.W from Havana, Cuba announcing their products, very clear.-

Now I have left this letter for the last to answer of the 56, that came in to day from all part of the states and Cuba, because I wish to give you a million of thanks for your nice report and to tell you that I am not English nor American, I am Cuban, next Tuesday morning the 29th from 2 to 3 EST. I am going to broadcast a dedicatory program to you, with American music, please check us up and report.-

Hoping to hear from you again, I am,

Your Cuban announcer,

W. Cervantes
