Dear friend:

We thank you very much for your kind report of our special DX program of 1.12.36. . . . and the dime you sent us to cover postage, as you say that it is only fair to do so. . . Well, dear friend, I don't think it is fair to keep you awake all night and almost until breakfast, listening to our program mixed ^{up} with a lot of static, interference and fading, then write us a letter, a report, put them into an envelope, go to the post office, spend 3 cents in stamps and on top of all the trouble and expenses you send us a dime! Now let us consider: This card is of value to you, and your report is of great value to us. Why not go fifty fifty? Why should you pay for everything? Next time do as you are told or I will go up there to pull your ears off. Sincerely yours
