Dear friend:—

Thanks for your letter of 20th. inst.
The fellow who did CMOX DX broadcast gave me before he left for Canada a few of CMOX verification cards already signed as he was the one who answered all correct reports sent in — while the station people do not answer any at all. —

A few of the stations here are this way and although I write to them saying to please answer these reports they never do and often I do it myself and get them to sign the veri cards or letters. —

Believe me it sure is a devil of a job. —

I don't know as yet if I will broadcast any more DX programs because I get no thanks in the first place, hell from members if the veries are not sent right away, loss of sleep, the trouble I have go to through to have a station do a DX broadcast, etc. —

If you any more trouble with your Cuban veries — write to me and I will do what I can. —
