Dear Mr. Brauner

Many thanks for your DX Report. Please consider this letter verification of your having received WABR on the morning of March 6, 1959.

WABR in Orlando is a 5000 watt non-directional daytime station, and we are planning to run regular equipment tests on the third Wednesday of every month from 0215 to 0230.

We are having beautiful weather here in Florida, and hope you can get down this way sometime soon.

Again thanks for the report, and hope to hear from you again.

Sincerely,

*Jim*
