Dear Mr. Brauner:

Your reception report dated January 12 was certainly a pleasure to read. The details of our test broadcast on that date were correct as listed by you.

We broadcast a frequency test from 2:00 to 2:15a.m. EST on the second Wednesday of each month. Our monitoring engineer is C. M. Gray, P. O. Box 602, Birmingham 1, Alabama.

We are enclosing a booklet prepared by the Chamber of Commerce of our community which will give you an idea of the beautiful section of the Gulf Coast where we are located.

Very truly yours,

RADIO STATION W.F.T.W.
