Dear Sir;

I would like to say we appreciate your report on our signal there in N.Y. It is just a costume I have made on our test and maintenance period. I just like to hear the reports and to see just what the heavy side layer is doing to Radio on the Sky waves.

We have Collins Equipment through out. I think it is about the best you can buy for the price; it is lots cheaper than most Radio Transmitters for Commercial use.

I take from the wording of your report you are a Ham Operator. If so send me your call letters and I might get to contact your station some time in the ~~rather~~ future.

We will be back on the Air on the 8th. of Nov. about 1:30 A.M. CST. that will be 2:30 your time, I will give your name and other reports on that date. I have received another report from N.Y. City. I have ordered me a Hammerlund H.Q. I29 X. It is to ship on the 30th. of this month.

I have got to stop because I have a Ork. to put on the Air in 30 minutes.

Thanks again for your report.

Very Truly Yours
Frank Haynes

P.S. One of our letter heads for your collections.
