Williamsville 21,
New York

Dear Mr. Brauner:

This is to verify your report of reception of this stations frequency measurement transmissions on Dec. 19, 1950, 3:40 A.M., E.S.T.

We make frequency tests each third-Tuesday morning at 3:40 A.M. and give station identification before and after the 500 cycle tone modulation, as your heard. We have 10 minutes to complete the tests, but seldom require more than 5 minutes.

Many thanks for your report of reception.

Yours very truly,

A handwritten signature in blue ink that reads "Charles L. Clifton". The signature is fluid and cursive.
