Williamsville 21, N.Y.

Dear Mr. Brauner:

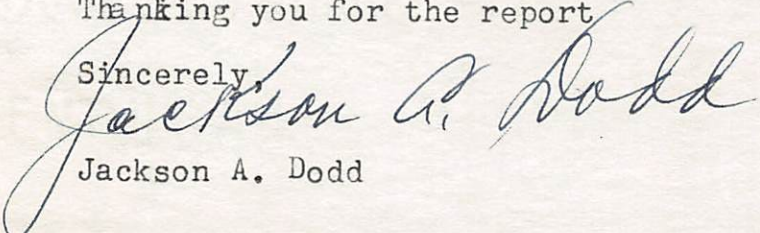

This is to verify the report of the reception of our station on the morning of December 12, 1949, 3:15 to 3:45. This is the time for our regular frequency check 3:15 to 3:30 the second Monday of each month.

For modulation we were using a 1000 cycle tone at first then dropped down to 500 cycles until 3:30 AM. After 3:30 we were varying the frequency of the tone over the entire audio range testing.

By the way the time referred to above is AM EST.

Thanking you for the report.

Sincerely,

  
Jackson A. Dodd
