

# RADIO STATION W T F I

ATHENS, GA.

February 7, 1934

Mr. J. W. Brauner,  
17 East Spring St.,  
Williamsville, N. Y.

Dear Friend Brauner:-

Thanksfor yours of the 4th!

No appologies are necessary because we haven't been doing any DX. Wouldn't have been on on the 4th had not one of our 5 KW tubes decided to go to the "Happy Hunting Grounds" We didn't have a spare because we can usuallly get one in a couple of hours time from Atlanta but darn it this one had to wait until Saturday when Graybar Electric Company had closed up. I left here at 9:00 PM and drove to Atlanta, spent a couple of hours getting hold of the party that had a key to the warehouse and finally started back at 12:15 AM. With the new V-8 we made the 72 miles back in one hour flat put in the 228-A and decided to hold a text program. That's all there is there isn't any more except that since Monday we have been up to our necks trying to acknowledge all the cards and letters that have been pouring in. Frankly I think it better to let the stationd come on when they want for their tests or DX programs. We have had better response to this test than any of the prearranged programs of last year.

OK on not nitifying you, we wont but here is a tip----we are planning another of those real get togethers like we used to have last year all tallent with yours truly in good voice (I hope) acting as chief tail-twister and we won't tell you when, just give a listen some time on Sunday morning soon and see what you see turned loose on the ether. Yes we got to the wilds of Canada and have hopes of reaching our friends in foreign countries. You might mention in your next club meeting that I'm up to my old tricks again and not to be surprised at anything you hear emancipating from the Classic City. By the way give a listen for W4BTI on 3979 some time that's me too! Hi! Have 82 watts and WTFI quality. Give me a report when you hear me. Am on every nite after nine EST. Many thanks for your letter and I'll be seeing you.

Cordially,

*A. Lynne Brannen*
