Dear O. M.:

I certainly do appreciate your report on the test program from KFGQ. And I must say that you have given a real report--in fact the best report which I have ever received from a listener during my short experience in broadcasting.

You ask for an Echo stamp, but I am sorry we do not have any. However in place of that, considering the report which you sent me, I am going to send you a photograph of my new transmitter, which I think you will like a lot better than the stamp.

I appreciate especially your check on frequency wabulation. I am happy to receive this report on this program because I was using only 50 watts of my allotted 100.

I am going to put on another test in the future using 100 watts when all my equipment arrives, and I will notify you of that test, to be either listened to or slept through optionally.

We have a late program from 11 to 12 o'clock every Sunday night, and receive quite distant reports on that. To date we have seventeen different states reported from on that one program.

Very truly yours,

Lester K. Quirk
Chief Engineer.
