January 14th 1933.

Dear Mr. Brauner:-

Thanks for your nice report on our test broadcast of Jan 11th. Reports like yours are of real encouragement. In addition to being chief announcer I am also assistant engineer, being in charge of the transmitter for 3 hours each day, so I am naturally interested in the technical details. Thanks a lot.

Am enclosing one of our DX cards. Write again sometime & excuse haste of this brief letter.

Sincerely

Floyd Bartlett
