

IDAHO

**KFXD** STATION

211.1 Meters—1420 Kilocycles

OWNED AND OPERATED BY FRANK E. HURT

NAMPA, IDAHO  
Feb. 20, '32

Dear Mr. Brauner:-

We were indeed gratified to receive your very nice long letter reporting on our special program broadcast for the Newark News Radio Club on Feb. 14th. Your report was very complete and checked with out station log exactly.

For your information will say that we use the new type Western Electric transmitter and speech-input which is guaranteed 100% modulation. We use 100 watts. We are very well pleased with out new equipment and have had some wonderful reports from all over the U.S.

The Idaho Wranglers will be overjoyed to send you one of their pictures and I'm sure you will feel that your 25¢ will be well spent.

Most sincerely,

KFXD
