Dear Mr. Brauner:

This is in verification of your report of reception of our new station during our equipment tests.

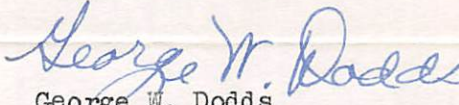

We are sorry we have taken so long in answering your report, but it takes time to get everything going alright in a new station. But I am happy to say now, everything is going smoothly. Of course, it could be better, but that will come with time and practice.

As I mentioned, this is a verification of your log. We want to thank you for taking the time to send your report. It is greatly appreciated.

We were glad to know we could be heard as far away as Williamsville.

In behalf for the whole staff, I again want to thank you for your report.

Sincerely yours,

George W. Dodds
Chief Engineer
