Dear Mr. Brauner:

Belatedly, my personal appreciation for your nice letter. It is a pleasure to read such comments as yours about our efforts as amateurs playing at being entertainers. We did enjoy doing it, really, and in retrospect I get a warm feeling inside when I read a letter like yours - and that goes for my wife, Howard, and Quintette at the transmitter. For our part, it was a treat and we'd do it again next week except that we must show restraint and be modest about these things.

Of course, I must verify your report of reception of WGRY's test program the morning of January 18. Wish I had more time to tell you about our station, but I have a stack of letters to answer. Tickled to death, too, about hearing that you have heard us before at sign off through the bedlam on 1370.

Many thanks and 73s

Sincerely,
Geo. Whitney
Pres.
