PORTLAND, IND.

Mr. J. W. Brauner
23 Howard Avenue
Williamsville 21, N. Y.

Dear Mr. Brauner:

It was a pleasure hearing from you that you received our signal on the morning of October 9.

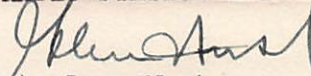

We were only modulating 25 to 30% at the time that would normally be much stronger under proper adjusted conditions.

Our operation is a two tower directional beamed slightly southeast which apparently puts a very good signal in your direction as we have had mail from Concord, New Hampshire and Norfolk, Virginia as the most distant points.

A further note will be appreciated on any of our future tests you may pickup which I am sure you will find satisfactory.

Thanks for writing, let us know if you hear us again.

Sincerely yours,
RADIO STATION WPGW
