WARREN G. DAVIS  
PRESIDENT AND GENERAL MANAGER

November  
Ninth  
1946

Mr. J. W. Brauner  
23 Howard Avenue  
Williamsville 21, New York

Dear Sir:

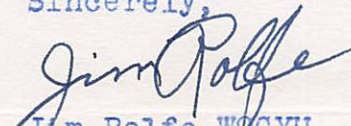

This will serve to verify your reception of our signals November 3, 1946 at 3:06 am to 3:16 am EST. The information submitted by you in your report has been checked and found to be correct.

Our radiator is a single 250 ft. steel tower, uniform cross section, guyed; our ground system consists of bare copper wire buried in radial fashion from the antenna base.

Our transmitter has a pair of 833A's in the final, using high level modulation.

Many thanks for your fine report. 73's.

Sincerely,

  
Jim Rolfe W9GYU  
Chief Engineer
