Mr J W Brauner  
17 East Spring St  
Williamsville N Y

Dear Mr Brauner:

Thank you for your long letter re the dx program of KFH Sept 27. I didnt even miss the postscript re KANS. I had never given it a thot before but it is a wonder someone harent done so.

You are hereby advised that KFH will have dxes throu the winter months on the last Thursday morning each month, 2:15 to 2:45a m CST. They are to be dedicated to the bigger dx clubs each in turn. You will see them listed in the bulletins of YOUR club soon.

We have had several good reports from the east on this dx but KFAO killed us wets of here, the only report from that way being, curiously enough, from San Francisco.

I see you have a log of 1104 stations. That is a very large log indeed. May I ask how many you have verified? My own log totals 713 logged since Sept 10, 1931. I didnt start verifying till about Jan 1 1933, so I only have some 275 veries, mostly collected last winter.

The Canadian monitor tests are news to me. Thank you very much for it. It will be included in our next bulletin.

Again, we thank you for your letter and you may accept this letter as your verification of the dx program from this station Sept 27 1934 at/from 2:15 to 2:45 a m CST.

We acknowledge all reports. Wont you send us a postcard report on our future programs?

Yours for more dx
