Dear Mr. Brauner:

Thank you very much for your report of our frequency check 4:05--4:30AM EST, on Feb. 15, 1951. This is to verify it as being correct.

your guess on the topography of this region is also correct. Middlesboro is located in the lower SE corner of ky. in the Tri-State area of Va-Tenn.-Ky.. It is entirely sorounded by the Cumberland mts., located in the soft coal country and has its share of hillbilllys.

My wife is a native of N.Y. having been raised about equally on Long Island and Middletown, N.Y.

Sorry I had not previously verified your old WCPM report, you had already wrote me about it (Oct. 27, 1950). I have signed the card and mailed it.

Yours Truly,
