J. W. Brauner
23 Howard Ave.
Williamsville 21, New York

Dear Mr. Brauner:

Thank you for your excellent report on our signal in your locality. We appreciate your kind wishes to us, and are happy to verify the broadcast on which you have reported.

As you probably know from Broadcasting Handbook, we are a 1000 watt daytime station using Raytheon equipment. Our tower is 340', about a quarter wave on 730 KC.

Wishing you success in your enterprises, I remain,

Very truly yours,

M. E. Picazo
