1490 On Your Dial

Radio Station

WS7P

BIG SANDY BROADCASTING COMPANY

PAINTSVILLE, KENTUCKY

Feb. 8, 1951

Thank you, Mr. Brauner for your report on our freq. check. You almost had me word for word, smacking my lips, clearing my throat etc.

I was about $\frac{2}{3}$ asleep at that hour, so I was subject to several mistakes.

We generally just send out QSL cards but in your case I will give you both - letter head & card.

You never said but I assume you have a rcvr with short wave. If so you can hear my own (ham) station W4JTB FALCON, Ky., on 3945 Kc. ^{1 kw} generally. Once in awhile I move freq. as I have an E.C.O. to generate the freq.

So again on behalf of the Engineers of WS7P - we thank you for your report. (Oh yes, we have had better DX)

Yours
R. P. Conley
