Mr. J.W. Brauner
17 Spring Street
Williamsville, New York

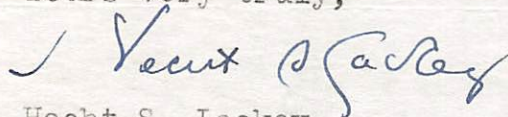

Dear Mr. Brauner:

Thank you very much for your complete report. This is to verify same.

Our station, although only on 250 watts, does put out a strong signal because of its location on the dial. There is only one other station on 860 KC in the United States (one in California) and the one you mentioned in Toronto. So, you see, we're almost on a clear channel.

Thank you for your good wishes, and may we hear from you from time to time.

Yours very truly,

Hecht S. Lackey
