

RADIO STATION **WTCW**
KY-VA BROADCASTING CORPORATION

Whitesburg, Kentucky
Sept. 22, 1953

Mr J. W Brauner
23 Howard Ave.
Williamsville 21, New York

Dear Mr. Brauner,

It in deed gives me grate staisifaction to verify your report of reception of Radio Station WTCW Whitesburg, ~~Ky.~~ Ky. I was on the air for the regular monthly frequency check which is from 12:20 to 12:30 AM CST, but fro some reason the Van Nastrand Engineering service in Atlanta, Ga. was unable to check the frequency at that time so he ask me to run it again from 1:00 to 1:00 Am CST.

We here at WTCW use Gates equipment except for the monitors which a r General Radio. Our antenna consist of a 275 foot tower.

Allow me to congratulate you as a new member of the National Radio Club and I certainly you enjoy a long and joyous fellowship in the Club.

We are always glad to hear from Long Wave listeners and to give reports of reception.

We are on the air each third Tue. of each month from 12:20 AM to 12:30 Am CST for the Frequency check.

David B. Jordan

Chief Engineer
WTCW Whitesburg, Ky.
