December 29th 1948

Mr. J. W. Brauner  
Williamsville, N.Y.

Dear Sir;

Was pleased to receive your letter regarding reception of our signals, you definately were listening to our program, as on December 15th it agrees with our program log. We are a Day-Time station and you heard our sign off at 4:15PM., the time we leave the air in December.

Our transmitter is a Western Electric 1 KW, and situated on a hill about 3 miles southwest of Lawrence, Mass. We have a pretty good signal up this way, it works out ok being on a hill top and a Day-Timer.

Best Wishes for the New Year & tks for your letter.
