August 30, 1955

Mr. J.W. Brauner
Valier, Penna.
Dear Sir,

Kindly consider this letter as a verification of reception of W E B B, on Aug. 16th, and 18th. From your very nice report, I know that it was our station, and you were quite right about our sign off.

I was quite surprised to hear that you could pick up our signal way up there, but then stranger things have happened. I'M thinking that perhaps the second station on 1360 which you did not read too audible, might have been WWBZ, in Vineland, N.J. We operate a directional pattern here, and of course, daytime hours only. We are to protect the station in Vineland, from interference.

The announcer you probably heard wasx Milton McFarland, signing off the station. You have almost repeated the wording exact.

Many thanks again, for your very nice letter, and I was very glad to hear from you. If ever you do pick us up again in the future, we would be happy to hear from you.

Sincerely,

Joseph R. Sporney
