Program Director  
ROBERT MESKILL

Mr. J. W. Brauner  
23 Howard Ave.  
Williamsville 21,  
New York

Dear Mr. Brauner:

This letter is to verify your hearing our station on the dates mentioned in your letter of October 22, 1949, at Williamsville, New York. I might add that we would like to express our apologies, in the same breath, for being so late with this reply.

I was extremely interested in your report when it was brought to my attention by our chief engineer, Walter Maxwell, so I am undertaking this letter of verification myself. I have been a ham for several years and have received many SWL cards, but I did not realize so many people monitored commercial stations. We were very pleased to receive your report from Williamsville, New York, as it is the first we have received from that far east. I am sure that you would be interested in knowing we have received letters from Pennsylvania, Iowa and Ohio.

We sincerely thank you for your report, and wish you good luck in getting many more DX conformations to add to your list.

Yours truly,

Roland S. Grambau  
Asst. Engineer

"The Oil Capital of Michigan"
