Mr. J.W. Brauner
23 Howard Avenue
Williamsville 21, N.Y.

Dear Mr. Brauner:

We very much appreciate your report of reception of our equipment test program of the morning of November 25th. We had just completed installation of new control room equipment, and were testing modulation level and limiting action of a new limiter on our average modulation level. We have had several good reports from your area regarding reception of our early-morning signal, and also our late afternoon programs. We sign off at 5:15, which is our local sunset.

You may be interested to know that our regular monthly frequency check is aired on each third Wednesday between 12:30 and 12:45A.M., EST. We also have a special DX program scheduled for the National Radio Club next Monday morning between 4:30 and 5:00 AM, E.S.T.

Best wishes for successful DXing through the coming season.

Sincerely,

RADIO STATION WSTR

William S. Miller, W5LNI
