

RADIO STATION KYSM

101 NORTH SECOND STREET

MANKATO, MINNESOTA

MANKATO 4673

25 August 1938

Mr. J. W. Brauner,
Williamsville, N.Y.

Dear Sir:

This letter will verify you reception of Radio Station KYSM, at Mankato, Minnesota on the August FCC Monitor schedule, 3:25 to 3:40 a.m. CST on Saturday August 13, 1938

This station has operated only about two months and you were fortunate enough to hit the first regular FCC monitor schedule.

The station manager here is a strictly business sort of a chap and so is not too interested in reports from far and away. A report from Minneapolis would suit better. Hi. But anyway we are happy to know you hear us and after conditions here get settled, next winter, we may run some late DX programs just for the fun of it. Until then our DX fans will have to be satisfied with our scheduled broadcasts till 2 a.m. on Saturdays and our regular FCC monitor schedules.

Very sincerely

Harbert D. Kimberly
