PAUL E. ROSCOE
GENERAL MANAGER

June 3, 1946

J. W. Brauner
17 Spring Street
Williamsville 21, New York

Dear Sir:

This letter will serve as an acknowledgment of your DX letter dated May 31.

I have checked through our program logs for that particular morning and find that all of the data which you have enclosed in your letter is accurate. I certainly want to thank you for your very kind remarks and the interest you have in KRES, as it was quite a thrill to us to know that the strength of our signal was so good in your area.

We are waiting permission from the FCC to start our regular schedule broadcast by this Thursday, June 6th. We are continuing our equipment tests up until 6:00 AM Wednesday morning, June 5th. If you desire any future information regards KRES we would appreciate hearing from you. Again thanking you for your kind letter, I remain

Very sincerely yours,

Paul Roscoe
