

October 2, 1957.

J. W. Brauner
17 E. Spring Street
Williansville, New York.

Dear Listener:

We were very glad to get a report of reception from you. Your report checks with our log of operations for September 27, 1957.

Other nite tests planned in the future are limited to a monthly frequency check, which was a portion of our operations on the night you heard us when the announcements of the station were given every one or two minutes to allow the frequency checking station to be certain of whom they were calibrating. For these checks we call them long-distance and get an instantaneous reading.

Very truly yours,

K P F A

K. O. MacPherson
