Mr. J. W. Brauner  
17 E. Spring St.  
Williamsville, N. Y.

Dear Mr. Brauner:

It is with no inconsiderable pleasure, that we received your letter of the 24th. instant, reporting our Saturday night concert, and that same was absolutely free of interference.

The Spanish word "mañana" means tomorrow and the announcer was undoubtedly giving our program for the next day.

We are indeed located in Mexico City at a frequency of 610 Kilocycles or 494 meters. Our call letters were received by you perfectly, as they are X.E.T.R.

We shall make it a practice to speak in English from time to time every night, so that our kind fans from the States may understand us clearly.

We thank you heartily for your report, and with best wishes we remain.

Yours sincerely.

COMPANIA DIFUSORA MEXICANA, S. A.
