Dear Kind Friend;

Thank you for your favorable reception report concerning this station. We feel sort of proud of the fact that we were the only station in eastern North Carolina to remain on the air all night during "Connie". We furnished rebroadcast for stations as far north as Quebec and as far south as New Orleans! At the moment we are cautiously awaiting "Diane". She is due to hit sometime tonight or tomorrow morning. Our station is still completely surrounded by water which has backed up off of the highway out in front of the building. Our auxillary power supply is all set to go and so are we ! Thanks once again for your kind letter.
