W. M. OLIVER, PRESIDENT

United Press News Service

REIDSVILLE, NORTH CAROLINA

Dear DX'er:

I was glad you were able to pick up WREV'S program on February 7. Your logging was correct.

Sorry it's taken so long to get the confirmation to you, but I have been extremely busy, what with supervising the new studio construction and the many other duties of the chief engineer in a combo operation and license renewal forms to be filled out for the FCC.

It was very gratifying to have heard from some 55 of you since the program, four of which came from New Zealand and one from Canada.

If you should ever be in our vicinity we'd be glad for you to stop in and see us.

Yours truly,

William M. Oliver, Jr.

William M. Oliver, Jr.
Chief Engineer
