Dear Mr. Brauner:

This will verify as correct, your report on our DX test program held Monday morning, March 22, 1954 at 3:30 am CST.

Sorry about the delay, but I have just rejoined the staff of KFGT, and haven't had a chance to catch up on all the DX reports that have piled up. Mr. Headrick apparently didn't get all of the reports answered.

Thank you for your very nice letter.

Wishing you good luck in your operations, I remain,

Cordially,

Harry Gehrett
Program Director
