Mr. J. W. Brauner
23 Howard Avenue
Williamsville, New York

Dear Mr. Brauner:

Thank you very much for your letter of November 24th, which verifies reception of WHEB's signals up there in Western New York.

It is very encouraging to know that WHEB is putting in such a nice signal out that way. I certainly appreciate the time you members of the DX club put in to make all these different reports. If it wasn't for WSB the 50000 watter in Atlanta, Georgia, we would probably be heard in and around New York City all the time, at least that is the case in Boston, which is 55 miles from our transmitter.

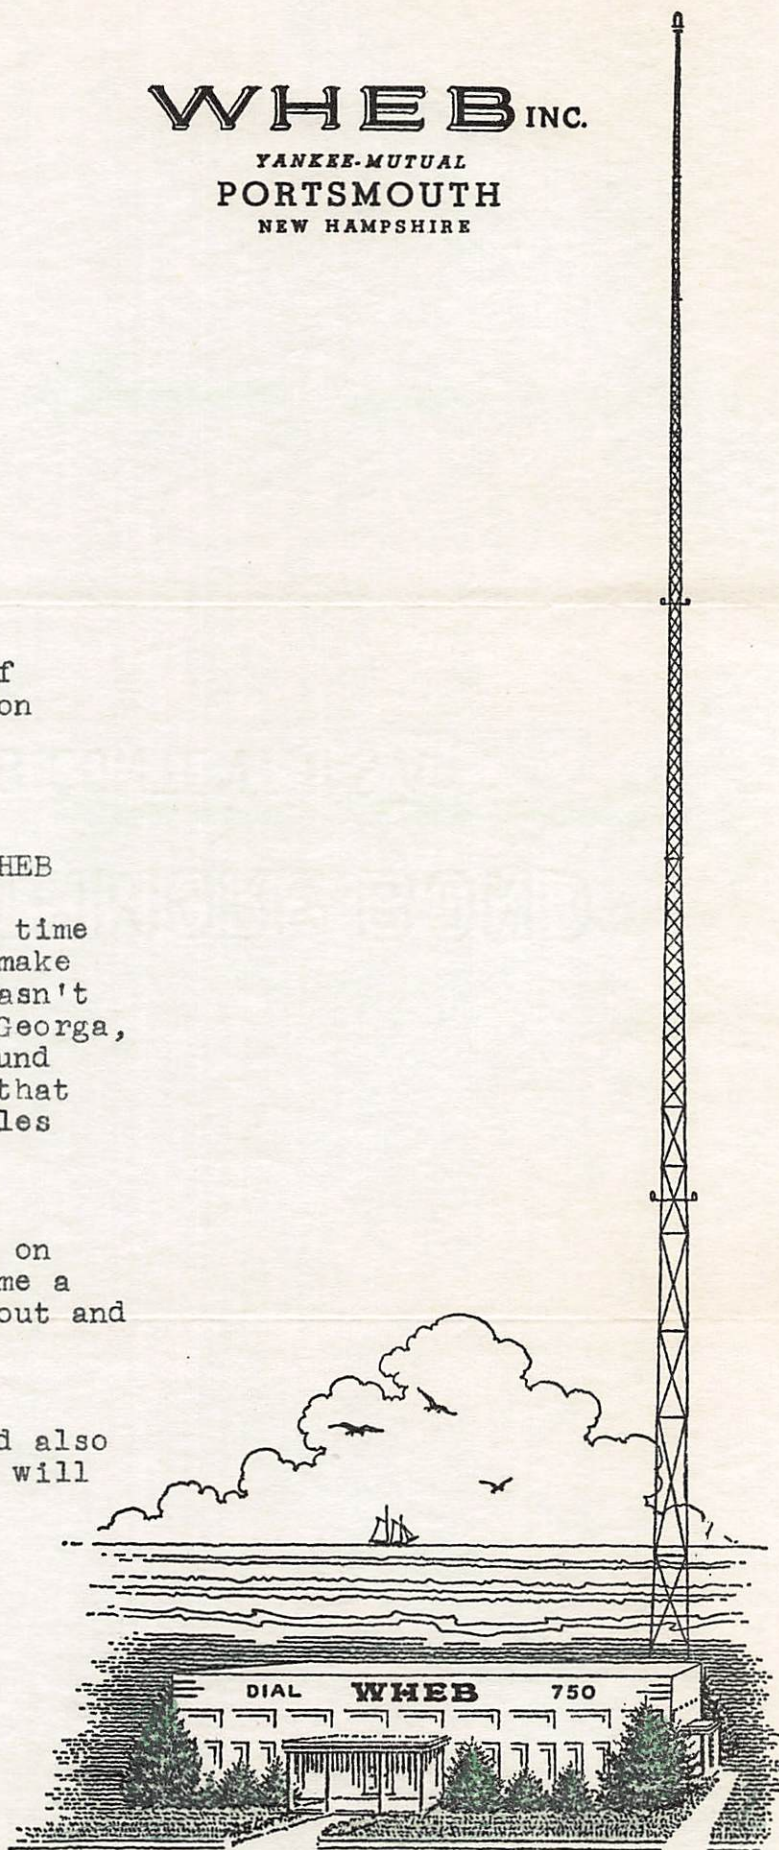

Since you already have a verification on file and since you took time to give me a report, I thought I'd take some time out and at least answer your letter.

Thanking you very much once again, and also wishing you a happy holiday season, I will close by wishing you good DX'ing.

Very truly yours,

Antonio Vaccaro
