JERSEY CITY, NEW JERSEY
PHONE JOURNAL SQUARE 2-2929

Nov. 10th, 1933.

Mr. J. W. Brauner,
17 E. Spring Street,
Williamsville, N. Y.

Dear Mr. Brauner:-

It gives me a great deal of pleasure to again write you after a lapse of a couple of years and to tell you at this particular time your letter of the 7th was about the finest report we received on our recent test program. We were not reaching into certain parts of New York City and therefore made an antenna change, and the result has been any number of letters from all parts of the country showing me that the good old DXers are on the job once again and it seems stronger this year than ever before.

We are planning a series of Thursday morning broadcasts from 12:01 to 3:00 A.M., beginning next Wednesday night, and if you happen to be up and around at that time would appreciate it very much if you will stay with us for a little while.

Your letter was very interesting and the data contained in the first three paragraphs will be turned over to our Chief Engineer.

If you have any particular requests that you would like played for you next Thursday morning, drop me a line and I will be glad to include them.

And so until we meet you on the air, please consider this letter a 100% verification of yours of Nov. 7th.

Sincerely yours,

NEW JERSEY BROADCASTING CORP.

Roland Trenchard,
Assistant to the President.

RT:AC.
