GENERAL EXPERIMENTAL STATION

W2XGB

Dear Listener:-

We appreciate receiving your report on the reception of our General Experimental Station, W2XGB.

We are operating on a frequency of 4797.5 Kc with a carrier power of 500 watts.

Press Wireless, Inc., has for the last five years been serving the Public by despatching Press in this country and in Foreign countries. To further our usefulness to the American Public, we are now conducting tests, which if successful, will enable us to improve our services.

Thanking you for your report, we remain,

Very truly yours
