

Radio Broadcasting Station
WCAD
UNDER THE SUPERVISION OF
DEPARTMENT OF PHYSICS
St. Lawrence University

Dec 22 1931

J. W. Brauner,
Williamsville, N. Y.

Dear Sir:

Just a note to verify your reception of WCAD on Dec 20th. Your report checks correctly with my log.

The transmitter is a twin sister to Cornell's at Ithaca, and is the only station in the country of its size and power operated by one man.

It is a 1 kW G. E. set operating on 500 watts. Wish I could have opened the throttle for you.

Many of the letters wish the "entire staff" a merry Xmas. This is amusing to me as the "entire staff" consists only of me.

Thanks for the kind

compliments and clippings
The temperature here was
16 above & very cloudy.
Mrs. Bergman almost
froze to death in the control
room, we forgot the heat
would be off Sunday.
nevertheless we enjoyed
doing it for the WX'rs.

Respectfully yours,
~~Harold W.~~ Bergman,
Operator - announcer,
St. Lawrence Univ.,
Canton, N.Y.
