Dear Mr. Brauner:

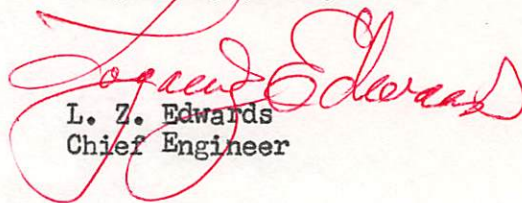

This will confirm your reception of station WYSL between 8:48 pm and 9:00 pm on Thursday, June 30th of this year.

WYSL is happy to hear that you received this station, even for so short a time at your location.

WYSL operates daytime only on 1080 and the transmitting equipment is a Gates BC 1 T am transmitter. On the fm bank we operate full time using an ITA transmitter feeding a 6 bay antenna.

Thank you again for your letter, and should you ever be in our area, feel free to drop in so that we may show you personally our physical installation.

Very truly yours,
