J.W. Brauner  
23 Howard Ave.  
Williamsville 21, N.Y.

Dear Mr. Brauner:

This is a verification of your report regarding our signal of March 14, 1951. Your report is correct in all respects.

I wish to thank you for your interest in our signal transmission and to say we are non directional here. The antenna is a 285 foot vertical tower grounded and shunt fed. The height above sea level is approximately 1500 feet.

WATG signs on every morning except Sunday at 6:30 AM.. A weekly maintenance schedule of Friday AM and Saturday AM is held, at which time I usually sign on for testing, however this is not a regular thing.

Again thank you and I hope you can receive us another time.

Yours truly,

*Richard Matthes*
