Garfield 5551 - Toledo, Ohio

July 27, 1946.

My dear Mr. Brauner,

Many thanks for your welcome and informative letter of July 2nd.

Please accept my apologies for the delay in answering.

Your report checked exactly with our program log. The announcer's voice happened to be mine as I conducted this particular engineering test.

Our 1 K.W. transmitter is the first one made by Raytheon since the end of the war. Sorry you can not pick up our daytime signal!

Thanks again for your report and the good wishes. I hope to meet you personally.

Sincerely,

A. R. Bitter  
Engineering Director.
